The Emperor Wears No Clothes

"The most talked about underground book of the last decade" has been transformed into the guidebook for the future.

*Hugobon, *TIME*, April 20, 1990

In this thoroughly researched, scrupulously annotated, and increasingly provocative book you'll learn:
 • How and why Cannabis prohibition began, and what that meant to America. • All the uses of hemp as medicine, food, fuel, fiber, paper, and as a plastic replacement. • The straight dope on marijuana smoking and its effect on the human body. • Who profits from the prohibition and criminalization of Cannabis. • What you can do to speed up legalization and profit from the coming changes.

A \$100,000* CHALLENGE TO THE WORLD TO PROVE US WRONG:

If all fossil fuels and their derivatives, as well as trees for paper and construction were banned in order to save the planet, reverse the Greenhouse Effect and stop deforestation; Then there is only one known annually renewable natural resource that is capable of providing the overall majority of the world's paper and textiles; meet all of the world's transportation, industrial and home energy needs, while simultaneously reducing pollution, rebuilding the soil, and cleaning the atmosphere all at the same time...

And that substance is—the same one that did it all before—

Cannabis Hemp...Marijuana!
